Subject: Air Conditioner

To whom it may concern,

I left the A/C in front of my door, please have this placed where you would ordinarily store these items. It works perfectly, but its absolutely way too loud! I'll have to purchase one that is less intrusive to my studies while we are in "social distancing", for lack of a better word.

I only know Elmer, so I left it addressed to him (not sure who deals with A/C storage)...

Thanks!

-BD.
